

IATSE Local 745 – Fox Sports North Video Staffing Side Letter

Effective date: July 1, 2019

When discussing the one-year extension for expiring Fox North Minnesota – IATSE Local 745 Agreement in 2018, the Parties gathered information to clarify how Video Controllers (V1) were being utilized in connection with the live broadcast or recording of sporting events, specifically Major League Baseball (MLB) games. In an effort to address the Union's concerns, the Employer agreed in the interim to engage one (1) Assistant Video Controller (V2) for MLB games on the first day of home stands and nondual day games starting on July 1, 2018 and extending through the remainder of the 2018 MLB Season – a total of ten (10) 2018 MLB events. The Parties further acknowledged that this issue was unresolved and that the practice of how cameras are counted for Video Operator staffing minimums will be addressed in future discussions.

In 2019, the Parties revised the above-referenced 2018 Video Staffing Side Letter for the 2019 MLB Season to require one (1) Assistant Video Controller (V2) for all MLB day games and the first day of a homestand – a total of forty (40) games – in the 2019 MLB regular season; an executed scan of which is attached hereto. It was acknowledged the 2019 Video Staffing Side Letter was a temporary solution and, in June of 2019, the parties further reviewed Employer's scheme for counting cameras applicable to Video Operator staffing, thereafter affirming that Employer will engage one (1) Assistant Video Controller (V2) for shaded cameras above nine (9) cameras, per the expiring and renewed underlying Agreement.

Regardless, the parties had previously negotiated a Video Staffing Side Letter for the select 2019 MLB home games which the Union and Employer agreed would remain in effect throughout the 2019 MLB season, only.

Agreed and accepted:
